

**Institute for International Education of Tohoku University
invites applications for**

**AN ASSOCIATE PROFESSOR POSITION IN
MECHANICAL ENGINEERING**

<http://www.fgl.tohoku.ac.jp/>

New international graduate courses are established in Graduate Schools of Science and Engineering in Tohoku University, where all lectures are provided in English.

Institute for International Education is interested in candidates at the associate professor level who are committed to high standards and professionalism for education and research in the international courses.

The assignment term starts on November 1, 2010 and lasts until March 31, 2014.

Applicants must have completed a Ph.D. in an appropriate field and have sufficient skill of teaching in English. Responsibilities will include (1) teaching mechanical engineering-related subjects at graduate level, (2) supporting activities aimed at recruiting international students residing outside of Japan, and (3) supporting the internationalization of education in cooperation with the Institute for International Education, (4) supporting the international student exchange programs in Graduate Schools of Science and Engineering (for example, Summer Programs in Science and Engineering.) Research activity would also be expected.

The successful candidate will belong to the Institute for International Education with salary commensurate with qualifications and experience.

Interested applicants should send a curriculum vitae, a publication list, PDF files of major papers (less than 5), a summary of previous activities as well as future education and research plans (1,000 words), a list of scientific grants the applicant has been awarded, and the names and contact information of three references to:

Hiroo Yugami, Professor (h_yugami@energy.mech.tohoku.ac.jp)

The application deadline is July 31, 2010. A screening committee will select the successful applicant after a full review of the submitted application materials and an interview.
